6555 Penn Avenue
Pittsburgh, PA 15206-4489
(412) 365-1000

MEMORANDUM: 00-136
DATE: October 10, 2000
TO: FOAM Participants
FROM: Tom Schofield
SUBJECT: D6082 Report Package Upgrade

Attached please find a new, DCC approved, D6082 Test Report Package, version 20001002. This package replaces the previously issued FOAM version 19980306. The new package contains changes as requested by the ASTM D02.B07 High Temperature Foam Surveillance Panel (most notably, the removal of Total Volume Increase). Please note that the Test Area has changed from FOAM to D6082 to better reflect the more common reference of the method to describe the test. Version 20001002 becomes effective November 9, 2000. On that date we will discontinue collecting data under Test Area EVLO.

This package is available on the TMC's web site at www.tmc.astm.cmri.cmu.edu. Please direct any inquiries to my attention.
