MEMORANDUM: 02-055

DATE: May 30, 2002

TO: D02.B07 (D6082) High Temperature Foam Surveillance Panel
D02.B07 (D6082) High Temperature Foam Mailing List
D02.B07 (D6082) High Temperature Foam Participants

FROM: Tom Schofield

SUBJECT: D6082 Technical Memorandum: Revised Standard D6082-01

Please be advised that the D6082 (High Temperature Foam) standard has recently been revised. The revised standard, D6082-01, replaces D6082-97 and is available from ASTM headquarters (the TMC's homepage has a link to the ASTM headquarters' website where the revised procedure may be purchased).

Effective immediately, the TMC will begin monitoring D6082-01. I am told that the most significant change was the addition of an appendix presenting aids for the analyst.

Please direct any inquiries to my attention.

Tom Schofield
