Pittsburgh, PA 15206-4489  
(412) 365-1000

MEMORANDUM: 00-123  
DATE: September 14, 2000  
TO: D6417 Volatility Participants  
FROM: Tom Schofield  
SUBJECT: D6417 Test Report Package

Attached please find the new D6417 Test Report Package, version BETA 20000914. This is the first report package issued for the D6417 method. The report package is effective October 2, 2000 to coincide with the start of TMC calibration monitoring (see TMC memo 00-121 dated September 13, 2000). Please use the attached formats for reporting all D6417 calibration test data to the TMC.

This report package is being issued prior to Data Communications Committee (DCC) review in order to accommodate the industry need for TMC calibration monitoring of D6417. The DCC will conduct a formal review that might require further revisions.

These forms will also be made available on the TMC's web site at [www.tmc.astm.cmri.cmu.edu](http://www.tmc.astm.cmri.cmu.edu). Please direct any inquiries to my attention.
