REPORT PACKET REVISION NOTICE: D874-20061113

VERSION: 20061113

EFFECTIVE DATE: January 9, 2007

DATE: December 13, 2006

TO: D02.B07 D874 Mailing List

FROM: Tom Schofield

A D874 test report packet has been approved by the ASTM D02.B0.07 Surveillance Panel and has been beta tested by the ASTM Data Communications Committee. This is a new test for TMC monitoring so there are no prior D874 report packet versions.

The new report packet version must be used for reporting TMC calibration testing data. Version 20061113 report forms (in pdf and doc formats), data dictionary, repeating fields specification, summary of changes and flatfile template (in txt format) are available from the TMC's website:

<http://www.astmtmc.cmu.edu/>

(Select Report Forms & Data Dictionaries → Bench Test Areas → D874. The new report packet files can be found under the d874/beta/current directory. They will be moved to the d874/current directory on the effective date.)

Please direct any inquiries to my attention.
