MEMORANDUM: 02-054

DATE: May 30, 2002

TO: D02.B07 GI (D5133) Mailing List
D02.B07 GI (D5133) Participants

FROM: Tom Schofield

SUBJECT: GI Technical Memorandum: Revised Standard D5133-01

Please be advised that the D5133 (Gelation Index) standard has recently been revised. The revised standard, D5133-01, replaces D5133-99 and is available from ASTM headquarters (the TMC's homepage has a link to the ASTM headquarters' website where the revised procedure may be purchased).

Effective immediately, the TMC will begin monitoring D5133-01. I am told that the most significant changes are some editorial revisions and an expanded precision statement.

Please direct any inquiries to my attention.

Tom Schofield
