The meeting was called to order at 2:05 pm by Dennis Gaal.

Meeting agenda and presentation is in Attachment 1.

ASTM anti-trust statement and electronic recording policy were reviewed.

Agenda was reviewed and approved by unanimous agreement.

The minutes from the last SP meeting (10-27-2022) had been posted on the TMC website and were reviewed. A motion to accept the minutes as posted was made by John Loop with a second by Mike Birke. Motion passed unanimously.

Old Business

The limits for Oil GIC18 had been set based on 17 results, so it was desired from the prior meeting to review the additional data generated on GIC18 to determine final limits for this reference oil.

John Loop discussed the results for GIC18 in Attachment 2 as there are now 76 results on the reference oil. The average GI for Oil GIC18 increased from 10.3 to 11.0, more in line with the anticipated GI of 12 when the oil was introduced, while the standard deviation also increased from 1.21 to 1.69.

Based on the analysis of the full data set, the limits would be calculated to be a min of 7.7 (from 7.9) and a max of 14.3 (from 12.7). A motion to accept the new calculated limits was made by Greg Miiller with a second made by Mike Birke. Motion passed unanimously.

There was no other Old Business.

New Business

As Matt Schlaff had stepped down as SP chair, Karina Gil had volunteered to assume the chair role for the D5133 SP. A motion to accept Karina as the new SP chair was made by Mike Birke with a second by John Loop. The motion carried unanimously.

There was no additional New Business.

A motion to adjourn was made by Mike Birke with unanimous consent as the meeting ended at 2:20 pm.

Respectfully submitted,
Dennis Gaal
