

TEOST MHT D7097 Surveillance Panel Meeting Minutes

A TEOST MHT D7097 Surveillance Panel Meeting was held on Thursday, September 10th at 10:00 EST. The ASTM Antitrust and Recording Policy was shared with the following attendees:

Angelina Chan – The Lubrizol Corporation
Dennis Gaal – ExxonMobil
Greg Miiller – Tannas
Jeff Yang – Afton
Matt Schlaff – Intertek
Becky Grinfield – Southwest Research Institute
Tom Schofield – ASTM Test Monitoring Center
Ted Selby – Savant
Udo Boecker – ISP

The purpose of the teleconference was to review Savant Lab TEOST MHT data on new catalyst batch 15AA and gather voluntary labs to donate runs on catalyst batch 15AA before replacing the current catalyst batch. Catalyst batch 14AA's current inventory is about 3-4months. Discussion took place in regards to the Savant lab data and also on the preferred process to donate the runs.

Lubrizol, Southwest, Intertek, and ISP volunteered to screen the catalyst and Afton needed confirmation.

- Donate 1-2 runs each on Tannas oils LDF, MDF, HDF, and TMC oils 432 and 434
- Tannas to provide catalyst batch 15AA
- LDF, MDF, or HDF can be obtained through Tannas if there are no inventory in lab
- TMC oils 432 and 434 to be requested as non-calibration run decoded for catalyst 15AA screening
- Donation runs to be completed within 3 weeks with TMC oil results reported back to TMC and Tannas oils results reported to Tannas.

Meeting adjourned at approximately 10:30 EST.
