MEMORANDUM: 17-035

DATE: November 1, 2017

TO: D02.B0.07 ROBO Mailing List

FROM: Tom Schofield

SUBJECT: D7528 (ROBO) Technical Update – Updated Test Method D7528-17a

A revised version of ASTM Standard Test Method D7528 (Bench Oxidation of Engine Oils by ROBO Apparatus) is available from ASTM (www.astm.org). Effective immediately, version D7528-17a replaces D7528-17. D7528-17a does now include all the mandatory updates specified in ROBO Information Letter 16-1.

Please remember to correctly report the new method-version (METHVER) in your data flatfiles transmissions to the TMC. The correct field name-variable designation is:

METHVER D7528-17a
