REPORT PACKET REVISION NOTICE:      TEOST-20211028

VERSION:                            20211028

EFFECTIVE DATE:            January 7, 2022

DATE:                                December 7, 2021

TO:                                    D02.B0.07 TEOST Mailing List

FROM:                                Tom Schofield

An updated TEOST(-33C) test report packet has been approved by vote of the D02.B0.07 TEOST Surveillance Panel and has completed beta testing by the ASTM Data Communications Committee (DCC). The primary revision is to expand RODNUM field length from 5 to 10 characters. The VERSION date is also updated, as is the field length for OILCODE. These changes are effective January 7, 2022.

On the effective date, the revised TEOST report packet version 20211028 will replace the current version 20080812. TEOST version 20211028 report forms, data dictionary, repeating field specification, summary of changes and flatfile template are available now from the TMC's website for beta report packages:

<https://www.astmtmc.org/ftp/datadict/teost/beta/current/>

On the effective date the folders will be moved to:

<https://www.astmtmc.org/ftp/datadict/teost/current/>

Please direct any inquiries to my attention:
