MEMORANDUM: 04-053

DATE: June 8, 2004

TO: D02.B07 TEOST Surveillance Panel
D02.B07 TEOST Mailing List
D02.B07 TEOST Participants

FROM: Tom Schofield

SUBJECT: TEOST Technical Update: Updated TEOST Test Method

Please be advised that a revised TEOST-33C test method D6335 (Determination of High Temperature Deposits by Thermo-Oxidation Engine Oil Simulation Test) is available for purchase from ASTM headquarters (www.astm.org). Effective immediately, the TMC will begin monitoring D6335-03b for future calibrations. Please report the TEOST data dictionary field METHVER (Method-Version) as D6335-03B for future data transmissions to the TMC.

Please contact me if you have any questions.
