REPORT PACKET REVISION NOTICE: 1P-20031105

VERSION: 20031105

EFFECTIVE DATE: January 8, 2004

DATE: November 25, 2003

TO: Single Cylinder Diesel Surveillance Panel

FROM: Scott Parke

The "ACC Conformance Statement is being added to the report package as the last page of the test report.

There was also a typographical error in the weighting factors grouping in the varnish area of the rating forms that has been corrected. This change affects only the appearance of the forms; there are no data dictionary changes associated with it.

Several other "clean-up" type changes were made to conform to revisions to the ETRTM rules (things such as data dictionary header field lengths, etc.). Refer to the "what changed" for full details.

This report package is posted on the TMC web site as 1P report package version 20031105. This report package will be in effect for tests reported to the TMC on or after January 8, 2004.
