With the recent completion of beta testing, new CAT Oil Aeration Test report forms and data dictionary, Version 20141215, are now available from the TMC Website. Due to the urgency of test data reporting the effective date of this report packet is December 22, 2014. If you have any concerns please contact me as soon as possible.

To facilitate the proper reporting of PC-11 Matrix tests without delay, this change has already been implemented by the TMC and the TMC is able to receive data transmissions for the new version.
