REPORT PACKET REVISION NOTICE: COAT- 20170710

VERSION: 20170710

EFFECTIVE DATE: July 14, 2017

DATE: July 10, 2017

TO: Caterpillar Surveillance Panel

FROM: Sean A. Moyer

A new version of the COAT report forms and data dictionary is now available from the TMC Website. This new version contains a critical update correcting a mistake in the test numbering field that wasn't found during the last round of beta testing. The ENSERIAL field has been moved to FORM 4 and ENGINE has been moved to FORM 1. This makes the lab designated engine number part of the test number instead of the engine serial number. This change will be effective July 14, 2017 to facilitate timely reporting of candidate tests. If you have any concerns please contact me as soon as possible.
