

CAT Task Force Conference Call

09/21/2015 1:00PM CST

Attendance:

Mark Jarrett
Jim Gutzwiller
Jim McCord
Martin Thompson
Bob Salguero
Andrew Stevens
Mark Cooper
Bob Campbell
Mey Dewey
Adam Roig
Jim Moritz
Elisa Santos
Sean Moyer

Agenda Items:

1K Reference Oil Analysis
C13 Ring Supply

Old Business:

Discussion Items:

1K Reference Oil Analysis

Elisa Santos presented *** 1K Analysis 9 18 2015 for SP***

The decision was made not to make changes to the 1K test at this time. This was due to low perceived test impact of the statistics shown and the lack of a current need for changes in the 1K test.

C13 Ring Supply

Mark Jarrett Presented ***C13 Oil Test Engine Parts Availability 2015***

Liners – Currently only 10 liners available, 144 liners due 9/29/2015

Pistons – Currently 44 pistons are available, 261 pistons are due 9/23/2015

Rings – Currently 0 rings are available, 100 rings are due 9/30/2015. The order level is being increased for the next batch.

It was requested that these parts be made in much larger batches similar to other lubricant tests. CAT indicated that their system is not set up to provide these large numbers of parts unless they are purchased and reserved. A third party central parts distributor may not be possible due to CAT distribution rules. CAT indicated that this is still potentially possible since the parts are not typical production parts.

Low pressure turbos were also mentioned to be potentially low supply. CAT will follow up on availability.

ASTM Test	D7549 C13	Supplier	Inventory Qty	next order Qty	next order due date	2nd order Qty	2nd due date
Arrangement	1Y4100						
Liner	1Y4107		10	144	29-Sep-15	144	4-Dec-15
Piston	1Y4106		44	261	23-Oct-15	168	30-Mar-16
Top Ring	1Y4108		0	100	30-Sep-15	200	20-Nov-15
2nd Ring	1Y4109		0	91	2-Oct	33	3-Nov
Oil Ring	1Y4110		0	35	2-Oct	58	26-Oct
