### **Discussion:**

- New reference oil for COAT
  - Reference: SwRI has 2months left, Intertek expired
  - 833-1: 12 tests worth of oil left
  - 832-1: each lab has 2 tests worth; possibly phasing out this oil; this oil has been suspended; disposal ideas?
  - Motion: The surveillance panel directs the TMC to extend the calibration periods for no net gain or loss and adding two additional tests to the calibration period allowing for two reference oil reblend runs (832-2 and 833-2).
    - Intertek (Tim Griffin) makes motion
    - SwRI (Bob Warden) seconds motion
    - Motion carries
