

PC-10 Matrix Status Report No. 6
June 10, 2005

Summary of Progress

Test Type	Planned Tests	Tests Started	Aborted / Invalid	Completed Tests^a
T-12	16	7	0	3
ISB	15	5	1	1
C13	26	8	1	5

a Operationally valid and reported to the TMC

General

An archive of PC-10 matrix status reports is available via a direct link on the TMC web site (<http://www.astmtmc.cmu.edu>). An Excel spreadsheet, with summary data for any reported tests, is also available. This spreadsheet is updated anytime new test results are received or there is a change in status for any test. For those interested in the full data bases for the T-12, ISB, and C13, direct links are provided.

T-12

All four first-round tests have finished. Three tests have been reported to the TMC and confirmed to be operationally valid. Three second-round tests have started. Based on laboratory estimates, the T-12 matrix is projected to be completed by August 15, 2005.

ISB

Two first-round tests have reached EOT. One test has been reported to the TMC and confirmed to be operationally valid. The re-run of the aborted test started on June 8, 2005. One second-round test started on June 9, 2005. Based on laboratory estimates, the ISB matrix is projected to be completed by August 31, 2005.

C13

Five tests have been completed, reported to the TMC, and confirmed to be operationally valid. Two other first-round tests are running, including the re-run of the aborted test which is expected to complete on June 18, 2005. Based on laboratory estimates, the C13 matrix is projected to be completed by October 15, 2005.
