SUBJECT: Report Form/Data Dictionary Change

In the process of moving the 1K/1N procedure to a standard several report form changes were required. These changes were approved by the Single Cylinder Diesel Surveillance Panel via an email ballot in December and are posted to the TMC web site as 1K/1N report package version 20020107. This report package will be in effect for tests reported to the TMC on or after March 21, 2002.
