Attendance - Jim Moritz, Jeff Clark, Jim Matasic, Shawn Whitacre, Marnix Torremann, Philippe Saad, James Booth, Doyle Boese, Zack Bishop, Jim Gutzwiller, Scott Richards, Bob Campbell, Mike Alessi

ISM Reference Test Update

Lubrizol's test is at 150 hours, so far everything looks good. We will schedule a call in the near future to discuss.

ISB Reference Test Update

Intertek's test is at 200 hours, looking better than their previous reference test (FE 125 ppm at 200 hours).

ISB ECM Information (Survey attached)

Philippe Saad received Intertek's ECM and they cannot communicate with it. They are trying to figure out if the old calibration can be used on the new ECM. They are also looking for an old bootloader version that will allow them to upload the old calibration file on the new ECM. Southwest will ship an ECM to Cummins to see if an older version of bootloader can be pulled from it.

Next Meeting - April 12, 2011 at 2 pm Eastern.
