

Meeting Minutes 7/20/16

DD13 Scuffing Task Force

Agenda:

1. Discuss Surveillance Panel Chair/Secretary Positions
2. Volunteers are welcome, please email Suzanne Neal before the meeting if you are interested for either position.
3. Review Operational Data
4. Time Flow Responses

### **Surveillance Panel Chair / Secretary Positions**

Patrick Joyce volunteered for Panel Chair and Jose Starling volunteered for Secretary.

Suzanne Neal from Daimler motioned to have Patrick Joyce be the Chairman of the Daimler Surveillance panel as well as Jose Starling taking the role of secretary.

Patrick Joyce seconded the motion with no objections.

### **Operation Data Review**

All operational data has been put on the TMC FTP site for further review.

Intertek used an on hand batch of oil remaining from the Precision matrix. This oil was from the same batch as the other oils that were ran for hardware prove-out testing.

Kevin will take a look at data for statistical analysis of the current tests to compare to the results generated during the precision matrix.

Labs are working on getting the matrix tests updated and transmitted to TMC on the new Data dictionary.

### **System Time Response**

All Labs agreed to stick with the time response posted in the procedure. All labs are able to hit the time response.

Next Meeting will be either 7/29/16 at 1:00Pm Eastern or 8/5/16 at 10am Eastern.

### **Agenda**

Review of statistical analysis of new top ring data.

Potential change of build oil
