MEMORANDUM: 01-003  
DATE: January 3, 2001  
TO: EOAT Surveillance Panel  
FROM: Jeff Clark  
SUBJECT: EOAT Report Packet

The EOAT Surveillance Panel recently made changes to the Intake Manifold and Ambient temperature specifications. The current version (19990803) of the EOAT report packet has been updated to reflect these changes. These changes are editorial in nature and only affect the text of the report forms, and therefore a new version of the report packet is not necessary. The updated 19990803 version of the report forms are attached. This report packet can also be downloaded from the TMC web site at [www.tmc.astm.cmri.cmu.edu](http://www.tmc.astm.cmri.cmu.edu). Please contact me if you have any questions.
