## SEQUENCE IIF ACTION ITEMS FOR HDEOCP ENDORSEMENT

- Designate a derivative of the IIF test as the IIFHD
- Define results desired by HDEOCP – only the 60 hour % Viscosity Increase
- Report Form changes
- TMC LTMS and SA for 60 hour result
- Natural Log transform suggested for 60 hour % Viscosity Increase
- Stands will be referenced thru the IIF Test
- If a full 80 hour test is desired, dual registration will be needed thru ACC. (Similar to Mack T8 tests)
- Will require a procedure change – Subcommittee B Ballot, possibly concurrent with the upcoming D4485 ballot
