

# EMA CJ-4 / 2010 Status

- **CJ-4 Oil Field Performance?**

Request Industry Data to be Submitted  
to EMA      March 1 2008 - NO Data

- **Chemical Limits – OK – No Issues Today**

- **Additional Performance Requirements**

Oxidation – IIIF-IIIG SL-SM      Robo?

TBN Depletion?

Shear Stability (Correlation?)

Aeration (EOAT Discrimination Concern) – Surv Panel

Turbo Deposits

Fuel Economy (3.5 HTHS)      Task Group?

Other?\

- **Review Test Redundancy**

# Turbo Deposit Test

---

- The CEC Management Board has advised Klaus Daniel of APL to stop any further test method development work until the development process has been reviewed with the Board
- The turbocharger test is not expected to become available for ACEA Oct 2008. ATC/ATIEL have requested to issue ACEA Oct 2008 without the turbocharger deposit test requirement.
