MEMORANDUM: 19-025
DATE: May 21, 2019
TO: Mack/Volvo Surveillance Panel
FROM: Sean Moyer
SUBJECT: Temporary T-12 Piston Skirt Re-use

During the May 20th Mack Surveillance panel meeting in Hagerstown, MD the CPD shared with the panel that the latest batch of T-12 piston skirts did not meet the specification for diameter. The CPD is working with the supplier to procure another batch of piston skirts but this situation leaves a shortage of supply in the industry. To ensure the test is available the surveillance panel unanimously voted to allow the re-use of piston skirts until a new batch of piston skirts is available.
