

## Relative Profiles for T-10 Outlier Screening

**Table 1**  
**Relative Profiles Effective 9/19/01 through 9/24/02**

| Cylinder  | Cylinder Liner Wear |        | Top Ring Weight Loss |         |
|-----------|---------------------|--------|----------------------|---------|
|           | ACLW                | RRPCLW | ATRWL                | RRPTRWL |
| 1         | 38.1                | 5.5    | 188                  | 60      |
| 2         | 37.2                | 4.7    | 130                  | 2       |
| 3         | 31.9                | -0.6   | 118                  | -9      |
| 4         | 26.6                | -6.0   | 86                   | -41     |
| 5         | 29.5                | -3.0   | 122                  | -6      |
| 6         | 31.9                | -0.6   | 122                  | -6      |
|           | RSDCLW              |        | RRPTRWL              |         |
| Std. Dev. | 6.5                 |        | 26                   |         |

**Table 2**  
**Relative Profiles Effective 9/25/02 to Date**

| Cylinder  | Cylinder Liner Wear | Top Ring Weight Loss |
|-----------|---------------------|----------------------|
|           | RRPCLW              | RRPTRWL              |
| 1         | 4.5                 | 39                   |
| 2         | -0.6                | -1                   |
| 3         | -0.6                | 8                    |
| 4         | -1.2                | -17                  |
| 5         | -1.6                | -2                   |
| 6         | -0.6                | -27                  |
|           | RSDCLW              | RRPTRWL              |
| Std. Dev. | 5.9                 | 45                   |
