T-8 Information Letter 19-1  
Sequence No. 25  
June 3, 2019

TO: Mack Mailing List

SUBJECT: Fuel Specification moved to TMC-Monitored Tests Fuels Document

During the May 20, 2019 Mack Surveillance Panel meeting the panel agreed to implement the recommendation of the Technical Guidance Committee's Fuels Task Force to use the fuel specifications listed in the "TMC-Monitored Test Fuel Specifications" document maintained on the TMC website. The fuel specification is unchanged. Specifications for fuel used across multiple ASTM test methods are being relocated to a single, centralized reference document.

The attached changes to Test Method D5967-17 are effective with the release of this information letter.

**(Revises D 5967-17)**

*Replace section 7.2 with the following:*

7.2 Test Fuel— Use PC-9-HS test fuel<sup>6</sup> from Chevron Phillips. The fuel shall have the properties and tolerances shown in the “PC-9-HS Fuel Specification” section of the “TMC-Monitored Test Fuel Specifications” document maintained by the TMC.

*Remove Table 1 and renumber Tables 2, 3, 4 and associated references*
