Re: IIF CPD Technical Memo 1 / Ring Color Code Format by Engine Run
IIF CPD Technical Memo 2 / Test Lifter Serialization Format

Cc: Mr. Sid Clark / General Motors Powertrain
Mr. Michael Kasimirsky / Test Monitoring Center

IIF CPD Technical Memo 1 / Ring Color Code Format by Engine Run

- 1.) Please find attached a chart showing the color code format of vendor cut rings by engine run. Note that paint must be removed prior to gap measurement in order to obtain an accurate value.
- 2.) Vendor cut rings are due to arrive the week of 21 AUG 2000 at OH Technologies, Inc.. Upon receipt, a six run set of rings will be furnished to the laboratories for the purpose of familiarization.
- 3.) Upon depletion of engine kits that contain rings that require laboratory processing, engine kits will be furnished with vendor cut rings.

IIF CPD Technical Memo 2 / Test Lifter Serialization Format

- 1.) Please find attached a listing of both current and future test lifter serialization formats.

If there are any questions or comments regarding the aforementioned items, please do not hesitate to call.
