Re: Seq. III CPD Technical Memo 17
OHT3F-061-1 Exhaust Valve Stem Seals (Batch Code 3) / No Paint Stripe

Cc: Mr. Bruce Matthews / General Motors Powertrain
Mr. Rich Grundza/ Test Monitoring Center

This Technical Memo is intended to notify users of the Sequence III test methods that the build out batch of OHT6D-061-1/Exhaust Valve Stem Seals (BC3) **do not have a white paint stripe** to differentiate these parts from the intake seals. In the absence of the paint stripe, the valve stem seals can be differentiated in the following ways:

1.) Manufacturer Part Identification

Both Intake and Exhaust Valve Stem Seals are manufactured with abbreviated letter identifications.

IN=Intake Valve Stem Seals

EX=Exhaust Valve Stem Seals

2.) Packaging

All future OHT6D-061-1/Exhaust Valve Stem Seals will be sealed in solid white zipper bags. Intake seals will continue to be sealed in clear zipper bags. Box labels will aid in differentiating the exhaust valve stem seals:

**OHT3F-060-1 QTY: 6 BC 4
SEAL, INTAKE VALVE STEM (Part Marked "IN")**

**OHT3F-061-1 QTY: 6 BC 3
SEAL, EXHAUST VALVE STEM (Part Marked "EX" / WHITE BAG)**

If there are any questions or comments regarding the aforementioned item please do not hesitate to call.
