REPORT PACKET REVISION NOTICE: IIFHD-20020325

VERSION: 20020325

EFFECTIVE DATE: May 1, 2002

DATE: March 25, 2002

TO: Sequence IIF Mailing List

FROM: Michael T. Kasimirsky 

A member of the DCC Beta Testing Team identified two problems with Version 20020312 of the Sequence IIFHD Report Packet after the beta testing closing date and after the report packet was issued for use by industry. The problems identified, and corrective actions taken, are listed below:

- The **MCLW** field was removed from the report forms but not from the data dictionary. It was deleted from the data dictionary.
- The **HSTUKT** field, which was listed in the *Pass/Fail Results* block on Form 4, is not a parameter in the Sequence IIFHD test and was deleted from both the data dictionary and report packet.

This version of the report forms and data dictionary is effective on May 1, 2002.
