REPORT PACKET REVISION NOTICE: IIFVS-20140321

VERSION: 20140321

EFFECTIVE DATE: 20140513

DATE: April 22, 2014

TO: Sequence III Surveillance Panel

FROM: Richard E. Grundza

Recently, the Sequence III Surveillance Panel approved the use, and reuse, of hardened seat insert heads for Sequence IIFVS testing. In order to properly document what cylinder heads were used for a given test, Form 9 was modified to add fields to document the left and right cylinder head part numbers. Version 20140321 adds these fields to form 9 and is available from the TMC Website. These changes are effective May 13, 2014.
