REPORT PACKET REVISION NOTICE:      IIIGB-20081017

VERSION:                                    20081017

EFFECTIVE DATE:                          November 3, 2008

DATE:                                        October 17, 2008

TO:    Sequence III Surveillance Panel

FROM:                                        Richard E. Grundza

The Sequence III Surveillance Panel approved, via electronic ballot, the creation of a new version of the Sequence IIIIG test measuring only percent phosphorus retention. As a result the Sequence IIIIGB report form set was created from a subset of the Sequence IIIIG report form set. Version 20081017 is available from the TMC Website. These changes are effective November 3, 2008.
