REPORT PACKET REVISION NOTICE:      IIIH-20140721

VERSION:                                      20140721

EFFECTIVE DATE:                            20140821

DATE:                                         July 21, 2014

TO:     Sequence III Surveillance Panel

FROM:                                         Richard E. Grundza

Recently, the Sequence IIIH Task Force assumed responsibility for a new version of the Sequence III test, the Sequence IIIH, which will be used to measure viscosity increase, weighted piston deposits and Phosphorus retention for an upcoming category. As a result the Sequence IIIH report form set was created. Version 20140721 is available from the TMC Website and is effective August 21, 2014.
