EFFECTIVE DATE: 20141022

DATE: September 22, 2014

The beta test of the IIIH report packet has been completed. A new version of the report forms and data dictionary, Version 20140922, has been created. This version is available from the TMC website and goes into effect on October 22, 2014.

Version 20140922 incorporates necessary changes noted during the beta test, as well as changes to the reporting of hardware information on Form 12. The changes to the hardware information were necessary to more accurately align with the IIIH test procedure. More information on these changes can be found in the 'what changed' summary, also available from the TMC website.
