Seq. IIIG Run 7 & 8 Task Force Conference Call

Task Force Members:

Jason Bowden	Tim Caudill	Karin Haumann
Matt Bowden	Pat Lang	Ed Altman
Robert Stockwell	Bill Buscher	Rich Grundza
Bruce Matthews	Jerry Brys	Sid Clark
Charlie Leverett	Addison Schweitzer	Dave Glaenzer
Attended Conference Call		

AGENDA

1.) Open discussion on introduction of Run 7 & 8 Pistons and Rings.

OHT will donate a single Run 7 engine kit to the following labs:

Lubrizol

Afton Chemical

Intertek

Southwest Research

Ashland, Inc.

So that we do not lose block runs during prove out testing, it was determined by the task force that all runs will be RUN 7. All testing is to be completed by 7/31/14.

The following oils will be used for the donated runs (to be assigned by TMC as they see fit):

2 each oil 434-1

2 each oil 435-2

1 each oil 438

The labs that run the donated test will receive an extension on the reference period.

All prove out tests will be run on NEW heads.

OHT will work with TMC and provide part numbers and color coding. We will work on the modifications to the Build Manual and Procedure as the testing on the new rings continues.

Next Call

The next conference call will be in August or after the final test has completed.
