230428 OHT Seq
IIIH Inventory Status

4.2) Fuel Update – Haltermann
no issues, sufficient fuel
Tank level as of April 27th.
Tank 63-HF0003 - 259,636

4.3) Control Chart Status Update – Grundza

Some parameters have been off target for a while – discussion about appropriate actions
Rich reviewed the charts with support from Travis. WPD is on target, PVis and varnish have been mild for a while. Sometimes oil 436 gives a very mild result (exacerbated by the oils small standard deviation) which skews the charts in the mild direction. It might be time to update the standard deviations.

4.4) Update about rebuilding engines, key points – IMTS

IMTS gave a presentation with recommendations for rebuilding the saved engines. William Murdock will chair the O&H Task Force to better develop the procedures. This work is being done well ahead of the need. As of the end of April the engine distributor had 1987 engines in stock.
