Sequence IVA Information Letter 23-1
Sequence Number 27
January 23, 2023

ASTM consensus has not been obtained on this information letter. An appropriate ASTM ballot will be issued in order to achieve such consensus.

TO: Sequence IVA Mailing List

SUBJECT: Change in Calibration Period

During the November 16, 2022 Sequence IV Surveillance Panel meeting, the panel agreed to an increase in the calibration period from six months to one year. This change was agreed to due to the limited availability of hardware and limited participation of test labs and stands. This change is effective for stand calibrations completing on or after November 16, 2022.

William A. Buscher III
