REPORT PACKET REVISION NOTICE: IX-20190702

VERSION: 20190702

EFFECTIVE DATE: July 17, 2019

DATE: July 3, 2019

TO: Sequence IX Task Force

FROM: Richard E. Grundza

Recently, the Sequence IX Task Force agreed to a number of changes to form 4 to include Maximum Number of Preignitions (MXPIE), as well as fields to report MXPIE severity adjustments and industry correction factors. In addition, a field to identify the piston batch was added to Form 16. Version 20190702, which addresses these changes, is available from the TMC Website and is effective July 17, 2019. The Sequence IX Surveillance Panel has requested a shortened implementation of these forms in support of new category data reporting requirements.
