REPORT PACKET REVISION NOTICE: IX-20170922

VERSION: 20170922

EFFECTIVE DATE: October 2, 2017

DATE: September 25, 2017

TO: Seq. IX (formerly LSPI) Task Force

FROM: Richard E. Grundza

Recently, the LSPI Task Force was informed that the designation for the LSPI test would be Sequence IX. As a result the report forms and data dictionary have been updated to reflect this change. Version 20170922, which addresses this change, is available from the TMC Website and is effective October 2, 2017. Two other previously approved changes of note are included as well; the field lengths for both OILCODE and FORM have been increased.

Please note that the TMC will accept file uploads using the current version of the LSPI data dictionary until October 2, 2017. However, the flatfile header will need to reflect 'IX' instead of "LSPI".
