REPORT PACKET REVISION NOTICE: UOLSPI-20220213

VERSION: 20220213

EFFECTIVE DATE: 20220321

DATE: March 3, 2022

TO: Used Oil Aging for LSPI Task Force

FROM: Richard E. Grundza

Recently, the Used Oil Aging LSPI Task Force agreed to issue a new set of forms for reporting of Used oil aging and LSPI results on aged oils. These new forms allow for reporting of both Used oil aging and subsequent LSPI test on the aged oil on one set of forms and data dictionary for transmitting data electronically. The changes to these this report packet are too numerous to identify in this cover letter but are detailed in the what changed file on the TMC website. Version 20220213 is now available from the TMC Website. These forms and data dictionary are effective March 21, 2022. This somewhat expedited date is necessary to allow reporting of matrix tests which are currently under way.
