REPORT PACKET REVISION NOTICE: VH-20241217

VERSION: 20241217

EFFECTIVE DATE: 20250109

DATE: December 18, 2024

TO: Sequence V Surveillance Panel

FROM: Richard E. Grundza

Recently, the Sequence V Surveillance Panel agreed to add several surface finish measurements, cylinder bore and ring gap measurements as well as other hardware items to the test report forms. During beta testing of this change, an error was noted on form 9 where incorrect measurement values were defined and a field was duplicated in the data dictionary. Version 20241217, which adds these fields and removes the duplications is effective January 9, 2025.
