- 1) Minutes approved from 12/19/21 TF call.**
- 2) Group agreed decision to fix dates for San Antonio lab visits would be deferred until COVID situation had lifted.**
- 3) Group reviewed Doyle’s attached report spending most of the time on the RVP datasets, Slides 13-20. The SwRI RVP data raised the biggest concerns since most of the numerous results are below the lower RVP limit. Group agreed that this should be tackled as the main subject at the next TF meeting.**
