OHT6D-099-3, HFV6 Test Engine- Fiber Thrust Washer

Cc: Mr. James Linden / General Motors Research
Mr. Bruce Matthews / General Motors Powertrain
Mr. Rich Grundza/ Test Monitoring Center

Please be advised that the latest HFV6 test engines OHT6D-099-3, otherwise designated as batch "D" engines, include factory installed fiber thrust washers designed to reduce wear of the timing gears. These thrust washers should be retained and installed with the non-phased timing gears supplied along with the engine by OH Technologies.

If there are any questions regarding this matter please do not hesitate to call.
