REPORT PACKET REVISION NOTICE: VIF-20210706

VERSION: 20210706

EFFECTIVE DATE: 20210831

DATE: August 3, 2021

TO: Sequence VI Surveillance Panel

FROM: Richard E. Grundza

Recently, the Sequence VI Surveillance Panel agreed to remove the test fuel C of A information, contained on forms 20 and 21, from the test report. The C of A is now available at the TMC Website. Also, a review of the forms indicated that Forms 8 and 9 did not show the proper ranges for fuel to flowmeter temperature. Version 20210706 removes these forms and addresses the fuel to flowmeter temperatures and will become effective August 31, 2021.
