

## Test Monitoring Center

6555 Penn Avenue  
Pittsburgh, PA 15206-4489  
(412) 365-1000

MEMORANDUM: 01-123  
DATE: October 2, 2001  
TO: Sequence VIB Surveillance Panel  
FROM: Richard E. Grundza  
SUBJECT: Editorial Changes to Form 9 of Sequence VIB Report Forms

The Sequence VIB Surveillance Panel has agreed to not require that Blowby measurements be performed. However, the panel agreed to allow these measurements be performed if requested by the test sponsor. Form 9 has been revised to include a note to show that these measurements are no longer required. No revision to the version of the report forms or data dictionary has occurred with this editorial change. The current report form and data dictionary version (20010716) is still in effect and is posted, with this change, at the TMC website. In addition, a copy of revised Form 9 is attached.
