

## Test Monitoring Center

6555 Penn Avenue  
Pittsburgh, PA 15206-4489  
(412) 365-1000

MEMORANDUM: 01-147  
DATE: November 1, 2001  
TO: Sequence VIB Surveillance Panel  
FROM: Richard Grundza  
SUBJECT: Report Forms and Data Dictionary Revisions

An error was noted in the current version of the Sequence VIB report forms and data dictionary. Form 19 incorrectly listed the units of measure for Infrared for Oxidation and Nitration as Abs./0.01 mm. The correct unit of measure is Abs./1 cm. Version 20011022 has been created with these changes and is available from the TMC website. This version is effective November 15, 2001.
