MEMORANDUM: 01-160

DATE: November 21, 2001

TO: Sequence VIB Surveillance Panel

FROM: Richard E. Grundza

SUBJECT: Editorial Changes to Forms 13 through 17A of Sequence VIB Report Forms

At the November 13, 2001 Sequence VIB Surveillance Panel Meeting, the panel agreed to a change in the air-fuel ratio (AFR) from 14.25:1 to 15.25:1 to 14.00:1 to 15.00:1. No revision to the version of the report forms or data dictionary has occurred with this editorial change. The current report form and data dictionary version (20010716) is still in effect. A copy of revised Forms 13 through 17A are attached. Copies of the report forms are also available at the TMC website.
