REPORT PACKET REVISION NOTICE: VIB-20030818

VERSION: 20030818

EFFECTIVE DATE: September 18, 2003

DATE: August 19, 2003

TO: Sequence VIB Surveillance Panel

FROM: Richard E. Grundza

Information Letter 03-2 dropped the requirement to conduct the oil analysis parameters listed on Form 19, while a request has been made to add an ACC Conformance Statement to the report forms and data dictionary. Form 19 has been revised to drop the oil analysis fields and add the appropriate fields for the ACC Conformance statement. Version 20030818 is available from the TMC Website. These changes are effective September 18, 2003. A previous revision notice was sent, 20030808, which incorrectly listed the Version as 20030808. The correct version is 20030818. I apologize for any inconvenience this may have caused.
