These are the unapproved minutes of the 12.17.2020 Sequence VI Conference Call.

This document is not an ASTM standard; it is under consideration within an ASTM technical committee but has not received all approvals required to become an ASTM standard. It shall not be reproduced or circulated or quoted, in whole or in part, outside of ASTM committee activities except with the approval of the chairman of the committee having jurisdiction and the president of the society. Copyright ASTM, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959.

The meeting was called to order at 12:04 PM Central Time by Chair Andrew Stevens.

- 1.0 The Agenda is Attachment 1.
- 2.0 Roll Call. Attendance is Attachment 2.

3.0 Old Business

MOTION: Approve minutes from the 12.07.2020 conference call.
Andrew, Adrian, second. Approval was unanimous.

4.0 New Business

4.1 The additive for deposit control for VIE fuel will be maintained by TMC. Stuart Bartley was invited to attend to answer specific questions on the additive package.

4.1.1 The order will be for 4 drums. It has a 2 year shelf life, but is stable for many years. There are tests that could be run to monitor the additive. High temperatures should be avoided, and TMC should follow normal storage practices.

4.1.2 This particular product is no longer produced, but GA902X product has multiple versions would be a more current product code.

4.1.3 There will be a change to the fuel specification footnote to use the TMC supply for future blends. There would need to be an update of inventory should the current fuel supplier still have stock of existing additive.

4.2 There was an action in the previous meeting for Aleise to contact people at GM involved with the vehicle fuel economy test to look at options for the flush oil supply [FO].

4.2.1 For this meeting, SwRI noted they were sharing FO for the VIE/VIF and truck and car vehicle tests. The quantity is down to 750 gallons, and that would be depleted by March 2021.

4.2.2 Options discussed were to convert BL inventory to FO with the addition of the same detergent additive, or create a separate FO for the vehicles to keep the FO quantity for dyno based testing. TMC has a blend facility and could make the blend with additive and the recipe.

4.2.3 There will be another meeting scheduled in January 2021 to update on options and progress.

The meeting adjourned at 12:37 PM.

Sequence VI Surveillance Panel Call Meeting Agenda December 17, 2020 @ 1:00-2:30 EST

1. Roll Call (start 1:05 EST)

1.1. SP Membership changes and additions

2. Old Business

2.1	Approve Minutes from 12/07 call	Andrew Stevens
2.2	Deposit Control Additive Availability <ul style="list-style-type: none">- Seq VI Life Fueling Needs- Storage Stability, etc.	Panel
2.3	BL-6/FO-6 Update <ul style="list-style-type: none">- GM Update from Aleise- Path Forward?	Panel

3. New Business

3.1	N/A	N/A
-----	-----	-----

4. Next Meeting

4.1. SP Meeting: TBD

5. Meeting Adjourned
