The meeting was called to order at 9:02 AM Central Time by Chair Andrew Stevens.

- 1.0 The Agenda is Attachment 1.
- 2.0 Roll Call. Attendance is Attachment 2. Izabel Gabrel is a new member.

### 3.0 Old Business

MOTION: Approve minutes from the 12.17.2020 conference call.  
Andrew, Adrian, second. Approval was unanimous.

### 4.0 New Business

4.1 There is a new order of BL and FO estimated to arrive this summer. As noted in previous meetings, with vehicles and VIE/VIF tests running the same flush oil, SwRI will use their inventory. Dan Worcester had received 3 drums from another lab and ordered 3 from TMC. Andy noted that in the previous meeting SwRI had projected the FO life to mid-February. He asked what the new date would be. With reduced testing levels with the start of the new year, the current supply would be depleted by the end of March.

4.1.1 Options were discussed. Some of the existing supply of BL could be converted to FO with the recipe from the supplier. TMC does have blend capability. They do have about 100 drums of BL in stock, and will confirm inventory. The BL supply should not be critical before BL-6 arrives. This needs to be done before TMC moves to their new facility.

ACTION: Working with the supplier, TMC will blend 10 drums of FO.

ACTION: Labs will check their inventory to avoid surprises.

The meeting adjourned at 9:27 AM.
