SEQUENCE VIB INFORMATION LETTER 05-1  
SEQUENCE NUMBER 22  
July 19, 2005

***ASTM consensus has not been obtained on this information letter. An appropriate ASTM ballot will be issued in order to achieve such consensus.***

TO: Sequence VIB Mailing List

SUBJECT: Additional Throttle Body Part Number

As a result of a recent email ballot, the Sequence VIB Surveillance Panel agreed to allow an additional throttle body part number for tests described in Test Method D6837. The current method requires throttle bodies with part numbers F2AZ-9E926 or F2AE-9E926 and that they are to be purchased through the Central Parts Distributor. Currently only throttle bodies with part number F3PZ-9E926NA are available. Revised Section 9.3.18.6 of Test Method D6837 is attached.

These changes are effective July 13, 2005.
