REPORT PACKET REVISION NOTICE: VIII-20231023

VERSION: 20231023

EFFECTIVE DATE: 20231107

DATE: October 24, 2023

TO: Sequence VIII Surveillance Panel

FROM: Richard E. Grundza

Recently, the Sequence VIII Surveillance Panel agreed to add a correction factor to the Stripped Viscosity (SVIS) parameter. The current report forms do not provide for this correction. As a result, version 20231023 has been created to provide these fields. Since candidate tests have been completed where this correction factor has been applied, a shortened window for implementation, November 7, 2023 has been chosen to allow these results to be properly reported.
